Appendix B - Example Daffodil Standards QI PLAN collection template

Practice name and ODS code
Practices involved in the PCN/ GP network/ peer review
Diagnosing the issues
Which Daffodil Standard(s) did the practice identify improvements could be made following baseline analysis? Which Daffodil Standard(s) has been selected?
What SMART goal(s) did the practice set for each *Daffodil Standard*?
Results
What SMART goal(s) *improvement did the practice achieve?*
What changes will/ have been embedded into practice systems to ensure improved quality end of life care in the future?
How did the GP network peer support meetings influence the practice's QI plans and understanding of end of life care?
Practice learning and reflection
What went well? What was less successful?
What has the practice learnt from undertaking this QI process?
How has the learning both about QI and end of life care been shared amongst the practice's GP network peer group? Include if this resulted in wider system and/or commissioner learning.
Attach results of both end of life care audits and staff, MDT and anonymised patient/family/ care-giver feedback (as appendices), including identified SMART goals for each *Daffodil Standard.*
